## **EXAAMINER'S COMMENT**

## Inventorship

This application currently names joint inventors. In considering patentability of 1. the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

#### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

# Specification:

The phrase –now US Patent No. 6, 609, 058 B1, -- has been inserted after "filed March 30, 2000," (line 7), and

The phrase – now US Patent No. 6, 308, 694 – has been inserted after "filed January 11, 1999," (line 8).

### In the Claims:

Application/Control Number: 10/625,758 Page 3

Art Unit: 3747

In claim 16, the word "method" (in lines 1 and 4) has been changed to --system -- due to error in typing.

#### REASONS FOR ALLOWANCE

3. Claims 1-34 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1, 9, 16, 22, 28 and their extended claims is the claimed subject matter regarding "a computer for determining a first signal related to pressure between said fixed orifice area and flow control valve, determining a second signal related to pressure downstream of said fixed orifice area, calculating a third signal related to the exhaust gas flow based on said first signal and said second signal, and determining a fourth signal related to the airflow based on said second signal and said third signal" which the prior art references did not disclose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **CONTACT INFORMATION**

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HIEU T. VO whose telephone number is 703-308-1951. The examiner can normally be reached on M-F, 2nd Friday Off.

Application/Control Number: 10/625,758 Page 4

Art Unit: 3747

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, HENRY C. YUEN can be reached on 703-308-1946. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
